

# THE WORLD'S ONLY TRULY *Sustainable* CAVIAR

Established in 2002 in Latvia, MOTTRA's mission has always been to farm caviar with an *environmentally conscious and scientific approach*, protecting the increasingly rare breed of ancient and beautiful fish – the sturgeon.

Utilizing a closed-recirculating system of its own design, MOTTRA ensures that the process of growing fish and processing is ecological, sustainable and environmentally-friendly.

- ✓ No preservatives or antibiotics
- ✓ Patented thermal control technology
- ✓ Low environmental impact
- ✓ Closed-loop farming
- ✓ Non-GMO feed
- ✓ Fully traceable

## *Malossol Osetra*

Malossol Osetra Caviar is uniquely sustainable and fish-friendly. Harvested from mature Siberian sturgeon (*Acipenser Baerii*) using a gentle, all-natural milking technique for a 100% guilt-free, no-kill caviar.
