SINGLE (1 box x 1kg)

BULK (1 ctn x 25 boxes)

Country of Origin: China

Fish Gelatine Granules

180 Bloom

Available in both

1kg Pack and 25kg Pack

Did you know...

Gelatine originated from Egypt!

Long before Gelatin derived its Latin name of 'gelare' – meaning to freeze – ancient Egyptians discovered it by cooking animal bones and extracted a primitive form of gelatin. This early version was used as a glue for clothes, furniture and tools – helping them survive in harsh climates and conditions.

They later discovered that bone-based broths, when cooled, could solidify into an edible gel. This was probably the first time gelatin was intentionally produced and used as a food product.
