

Since 1910, sourdough has been at the heart of everything BÖCKER does. What began as a family business in Minden, Westphalia, has grown into a globally active innovation leader — a fourth-generation, owner-managed company with nearly 200 employees, dedicated entirely to the fermentation and advancement of sourdough.

Innovation also means expanding what sourdough can do. BÖCKER's **handcrafted gluten-free range** — breads, rolls, and specialties — is produced with gluten-free sourdough in a dedicated facility, catering to consumers with gluten-free, allergen-free, or vegan requirements. **Certified fit by the Association of European Coeliac Societies (AOECS).**

Free from All Allergens
No added egg, nuts or soy

Easy to Handle,
100% Safe for Consumption

All Made from Sourdough,
for all the right reasons.

- ✓ **Individually packed in oven-proof packaging** — keeping the product protected against gluten contamination. A complete peace of mind.
- ✓ **Does not require a separate oven setup** — ready to go straight into the common oven. Saves valuable inventory space in the kitchen.

Oven film that can be baked
— provides clear visibility and
protection for consumers.

- ★ **Higher PH, Longer Shelf Life**
Acids in the sourdough reduces susceptibility to mold growth — skipping the need for any chemical additives.
- ★ **Fermented for Better Nutrition**
The long fermentation process breaks down phytic acid, improving digestibility and helping the body to better absorb nutrients.
- ★ **Simply Tastes Better with Sourdough**
Known for being particularly light and fluffy, sourdough breads score points with the distinctive, slightly tangy flavour.

*Prices are subjected to prevailing taxes.
